

Resolution number 7

The Problem

Our Wisconsin men and women currently on active military duty are having their leaves and/or discharges delayed thus they are unable to apply for or receive spring and/or fall turkey permits.

Whereas these men and women on active military duty who receive leave and/or discharge after the application period or the over counter sale has ended are not allowed to turkey hunt in Wisconsin.

Whereas these men and women have served our country they should be given one free turkey permit to be used during the spring and/or fall turkey hunting periods.

Be it resolved, the Conservation Congress at its annual meeting in Outagamie County on April 10, 2006 recommends that the Department of Natural Resources provide one free turkey permit to Wisconsin men and women currently on Active military duty
